What's in a name? At The Catlin Hotel, it's built into every detail, down to the catlinite stone which sits as bedrock underneath the property. More than its namesake, it's their story.

The year was 1838 when American artist George Catlin first shared information on the rich, red stone that is found in select locations throughout the world, Sioux Falls being one of them. A strong, visual reminder that our city is set apart from nearly every other place on Earth.

Native American tribes often used the stone in sacred ceremonies to promote peace, understanding, and unity; it's seen as a symbol of kindness, generosity, and serenity. The Catlin Hotel draws from that legacy to build its guest experiences, taking travelers and visitors to an escape of peace and wellness.

Luxury, comfort, and tranquility

The Catlin Hotel staff does more than welcome guests as they walk through the lobby. From the first "Hello!" to the final wave, the goal is for each person to feel known and truly valued during their stay. Touchpoints, such as a complimentary Bar Clara drink cart in the Wild Sage Lounge, are created to build a community within the hotel, providing guests a retreat from the impersonal realities of everyday life.

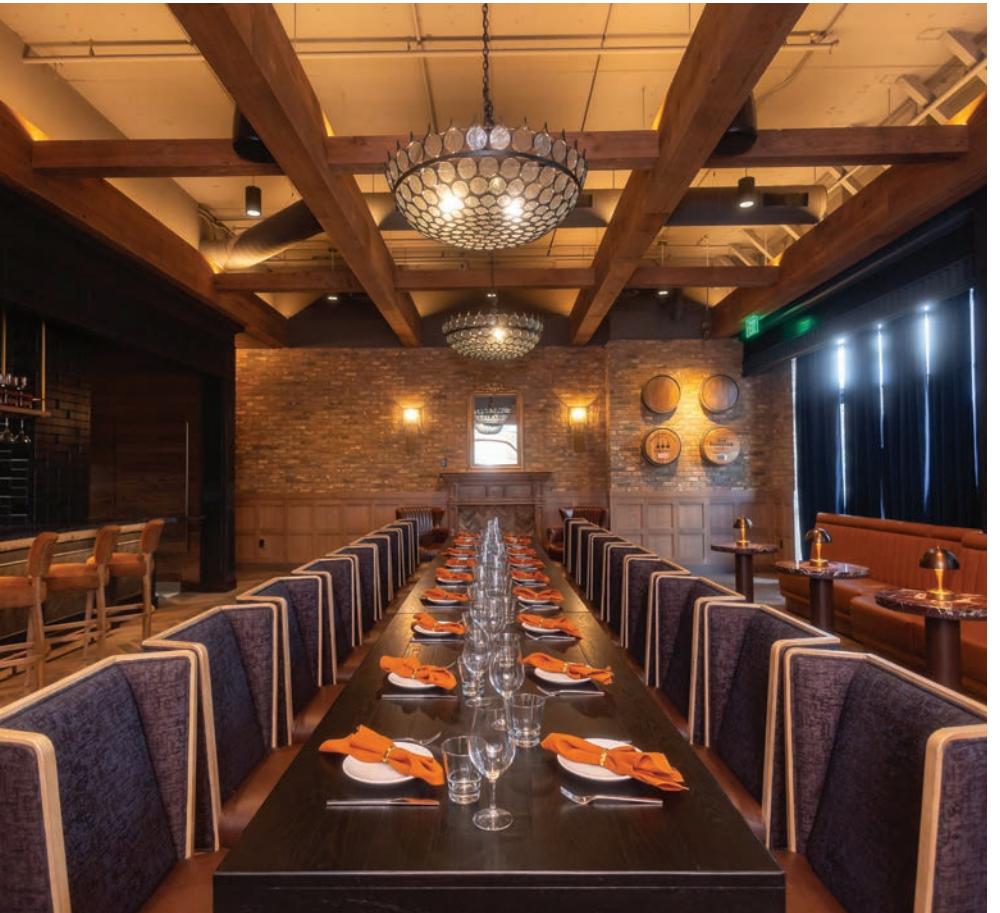

Luxurious bedding, plush robes, and thoughtful finishes await guests in their rooms. Whether their stay at The Catlin Hotel marks a special occasion, business venture, or escape from the ordinary, guest rooms are an oasis of tranquility and modern sophistication.

With comfort and wellness at the forefront of everyone's experience, The Catlin Hotel offers a wide range of ways for people to be at their best. Their onsite fitness center comes equipped with cardio machines, weights, and training gear, or guests can opt to take their workout outdoors along the beautiful Big Sioux River. The Catlin Hotel is located on the city's scenic Riverwalk in the heart of downtown Sioux Falls, providing miles of trails. Back at the hotel, fuel up at the onsite Starbucks and prepare for the day with high-end personal amenities found in every room.

Spaces for all occasions

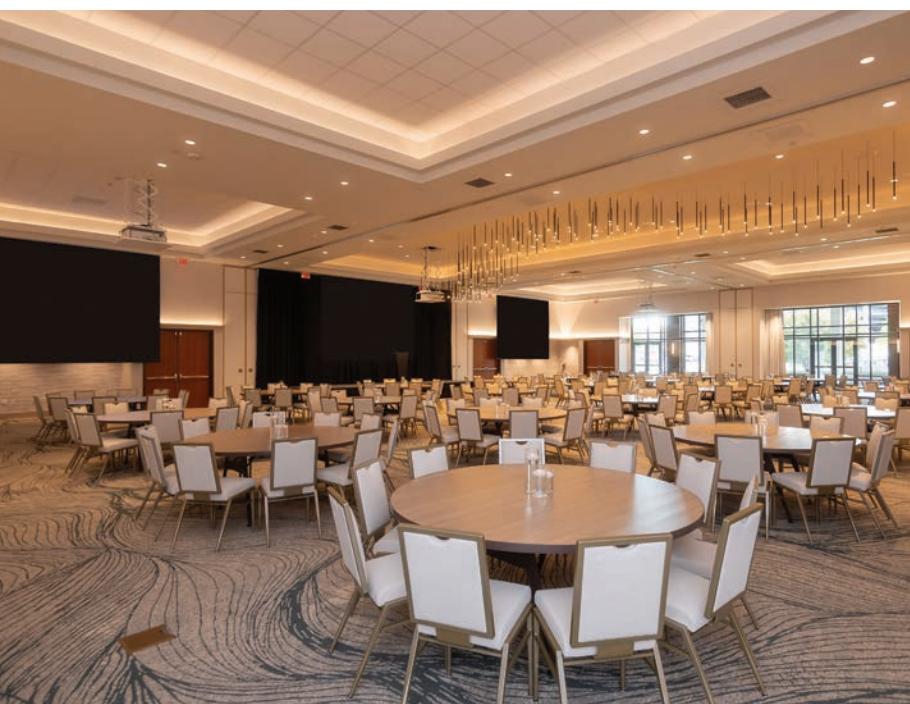

There's no detail overlooked within The Catlin Hotel, and that goes for the dining and gathering spaces as well. From cozy conversations in the Wild Sage Lounge to elegant events in the Four Winds Ballroom, there are unforgettable moments awaiting each guest.

◀ **BAR CLARA** is a special place for all at The Catlin Hotel. Named after George Catlin's beloved and supportive wife, Bar Clara is a one-of-a-kind private dining space uniquely designed for gatherings. It's the kind of place where guests forget about the world outside and immerse themselves in an elevated dining and entertainment space, privy to an exclusive, curated menu for private dining experiences and signature, hand-crafted cocktails.

Bar Clara is the perfect way to commemorate a rehearsal dinner, milestone celebration, or stylish social event. Planned in concert with guest experience coordinators, it's destined to be an unforgettable time!

THE WILD SAGE LOUNGE connects to the outdoor patio and reflects the tones of nature in an intimate and warm setting, perfect for unwinding as the day ends. Here, guests can enjoy hand-crafted cocktails, small bites and, of course, effortless conversation and connection with one another.

CRAVE FOOD & DRINK is the destination when hunger strikes. The thoughtfully designed menu aims to please all palates with dishes that blend comfort and innovation. This is where The Catlin Hotel guests are sure to savor every bite.

THE FOUR WINDS BALLROOM provides a space that turns any gathering into a polished event. A light and airy space, guests—and event planners—appreciate modern lighting, enhanced AV, refined finishes, and connectivity to pre-function spaces, indoors and outdoors. It's the perfect setting for celebrations and memories. ➔

 Falls Park Farmers Market, Sioux Falls

When the Sioux Falls Arts Council set out to build a stronger and more vibrant arts community back in 1969, it's unlikely they had any idea their vision would color the city from end to end with murals, exhibits, and opportunities to experience how enriching art—in all forms—can be.

READY TO SEE IT FOR YOURSELF? ➔

LET THE RHYTHM MOVE YOU.

Start with **SCULPTUREWALK** to take in over 80 unique sculptures in this outdoor, open-air gallery. From there, stroll down to the **EastBank Art Gallery**, a co-op that plays a prominent role in helping local and regional artists make a name for themselves. If you're looking for a souvenir to remember your trip, these works of art are much easier to take home than the outdoor sculptures!

As the day goes on, take it indoors to the **Washington Pavilion** and experience eight unique art galleries in the Visual Arts Center. Immerse yourself in different mediums as you move from room to room and appreciate the curated exhibits from around the world, brought right here to Sioux Falls.

Ready to move and groove? Then grab a friend or your family and claim your spot on the Lloyd Lawn at the **LEVITT SHELL**. Free professional concerts go on all summer long. Prefer to sit and soak in some symphonic musical stylings? Look no further than the Washington Pavilion for tickets to the award-winning **SOUTH DAKOTA SYMPHONY ORCHESTRA**.

For years, the community has rallied around the arts and music scene, supporting family-run businesses such as **TRIO JAZZ CLUB** featuring regional musicians as well as national shows that grace the stage at the **Denny Sanford PREMIER Center**. Regardless if you sing or dance, ooh or ahh, you're going to feel the rhythm of Sioux Falls when you're here.

CALL OF THE *Outdoors*

Sometimes you just need some fresh air. Whatever you're into—hiking, biking, skiing, swimming, or just exploring—you name it, **Sioux Falls has it.**

 **PALISADES STATE PARK**

FOR THE *outdoor* ENTHUSIAST

Think life is better enjoyed from a kayak or on a trail? **PALISADES STATE PARK**, **Split Rock Park**, and Devil's Gulch have jaw-dropping views of quartzite formations and 50-foot vertical cliffs. From fishing at dawn at Split Rock Park, to hiking in the afternoon, and finishing the day with a bite over the campfire, your experience in these parks will be worthy of any social media feed.

Staying within city limits doesn't mean compromising adventure. **THE BIG SIOUX**

RIVER RECREATION TRAIL AND GREENWAY is a 19-mile loop for bikers, joggers, rollerbladers, and walkers with 17 miles of spurs connecting neighborhoods to the main trail to take in even more sights.

GREAT BEAR RECREATION PARK is on a mission to provide fun and meaningful experiences all year long. And it does! When the snow starts falling, bundle up and break out your gear for downhill skiing, snowboarding, snowshoeing, cross-country skiing, and—a definite favorite—snow tubing! When the temperature starts rising, the 7-mile trail system leads hikers, bikers, and runners on a variety of nature experiences from ADA-rated strolls to demanding terrain excursions.

Looking to shred? Ten miles of singletrack bike-optimized trails are being developed in Great Bear—with the first 4 miles now open! Professionally built, the trails provide straightforward cross-country riding and more challenging downhill trips. This generational project, while years in the making, will undoubtedly attract generations of riders for years to come.

WHAT ABOUT THE WILD CHILD OR PEACEFUL TRAVELER?

There's something for them too. 

FOR THE *wild* CHILD

If vacation = swimming to anyone in your clan, visit the water slides at **Terrace Park Family Aquatic Center**, **JACOBSON PLAZA'S** state-of-the-art splash pad for some fun in the sun, or the **Midco Aquatic Center** to swim inside year-round. You can even cool off in the wading pool at **McKenna Park** or play games in the open green space at **Sertoma Park**.

Looking for more thrill-seeking fun? **BARB IVERSON SKATE PLAZA** is one of the largest skate parks in the country with 20,000 square feet of all-wheel terrain. Designed to be accessible and inclusive for skaters of all ages and abilities, you can bring your skateboard, inline skates, or BMX bike and express yourself.

For those looking to explore land, sea, and sky, stop by the **Great Plains Zoo, and BUTTERFLY HOUSE & AQUARIUM**. Spread across two beautiful campuses, the educational, up-close encounters are endless for even the wildest of little visitors.

FOR THE *peaceful* TRAVELER

The **Japanese Gardens at Terrace Park** put on a spectacular show every spring and summer as exotic flowers and trees bloom in vivid color. Pagodas, gazebos, and walking paths are the perfect points to stop and smell the roses as you enjoy this peaceful park.

At the **MARY JO WEGNER ARBORETUM**, walking trails weave through native plant displays, wetlands, and gardens. A launch for kayaks and canoes is available onto the Big Sioux River to take in the sights by water. In the winter, trails are used for cross-country skiing as Mother Nature puts crystalline touches on trees and shrubs.

Whatever adventure is calling you during your trip to Sioux Falls—don't miss your chance to explore. Discover more Sioux Falls parks at siouxfalls.gov/parks.

DOWNTOWN SIOUX FALLS: A CITY ON THE RISE

PRESENTED BY:

DOWNTOWN
SIOUX FALLS

Ensuring our downtown is a place for everyone, every day.

Downtown Sioux Falls is growing and expanding in all directions.

New developments are rising from the riverbanks, adding to the evolving mix of architecture and thoughtfully changing the appearance of the city's downtown skyline.

Modern structures effortlessly mingle with the historic and beautifully renovated buildings that give Sioux Falls its charismatic, ageless charm. This continued investment back into the area can best be described as a symbol of the immense pride local officials, businesses, and residents have for their city. Always working to enhance the experience for the people who live, work, and visit Sioux Falls...

THAT'S SO SIOUX FALLS!

JACOBSON PLAZA AT THE FALLS

Named after the Garry and Dianne Jacobson family—who were major supporters of the project's development—Jacobson Plaza officially opened to the public in June 2025. Thanks to the Jacobson family and a number of other significant contributions, this underutilized green space is now an all-season destination for people and pets of all ages and abilities. The park is free to enter and is home to some of the biggest and most unique attractions in the region.

So fun!

The skate ribbon is built for year-round recreation with refrigerated ice in the winter months and concrete in the warm seasons. **Did someone say bumper cars?!**

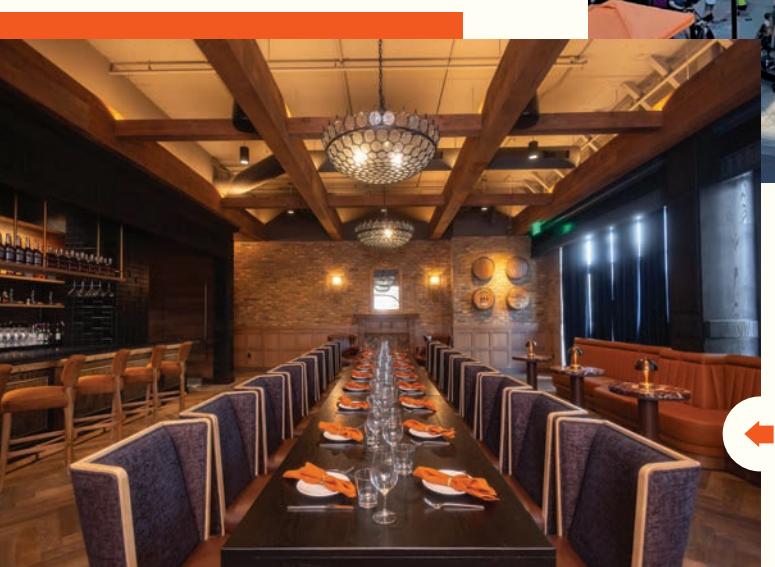

THE STEEL DISTRICT

This large-scale downtown development sits on seven acres of land once occupied by Sioux Steel Co. The project began in August 2021 and took more than three years to complete. As one of the latest urban neighborhoods developed in Sioux Falls, The Steel District is home to The Canopy by Hilton hotel, various living options, offices, retail, and exciting new restaurants.

CHERAPA PLACE

Built on the site of the former Zip Feed Mill—an industrial area on the east bank of the Big Sioux River—the initial Cherapa Place building opened in 2007 and was the first LEED Gold Certified project in the state. In 2021, a major expansion grew the site to four mixed-use buildings with apartments and retail. Sitting squarely alongside the Big Sioux River and the Arc of Dreams, you can dine with a view at any of the area's fun restaurant offerings.

Toast!

Bar Clara inside The Catlin Hotel embodies the spirit of connection and timeless hospitality.

THE CATLIN HOTEL

A classic example of making what's old(er), new again. Formerly the Hilton Garden Inn, the hotel started its grand transformation in early 2025. When renovations are complete, the hotel will rebrand to The Catlin Hotel and be part of Hilton's Tapestry Collection. It's an ideal downtown spot that's within walking distance to over 100 restaurants, endless shops, and wonderful outdoor activities.

Carnaval Brazilian Steakhouse has perfected the craft of serving meats to guests using **traditional southern Brazilian roasting and serving** techniques, earning the vote for the **"MOST UNIQUE DINING EXPERIENCE."**

How it works: When you flip your token to green, the parade of meats begins. If you want to rest, turn your token to red. When you're ready for more, just turn it back to green. Keep flipping the token until you've tried every skewer or until your appetite is completely satisfied.

For those with a smaller appetite, Carnaval offers appetizers or shareable plates that can be paired with your favorite beverage while enjoying the company of family or friends.

Enjoy a fantastic wine list, beers, cocktails, and nonalcoholic options. From Brazil, there's Guarana, and of course, Brazil's national drink, the Caipirinha!

SERVING SIOUX FALLS AND THE STATE THROUGH EDUCATION, INNOVATION, AND CARE

The University of South Dakota has a strong and growing presence in Sioux Falls. From alumni leading in their industries to faculty making a difference through outreach initiatives, the USD community is at work serving South Dakota's largest city while also supporting communities across the state.

USD – Sioux Falls, the USD Discovery District and the USD Sanford School of Medicine are key to that momentum. Together, these three areas are connecting students with opportunities, supporting the workforce, driving innovation, and promoting health and well-being for Sioux Falls and the state of South Dakota.

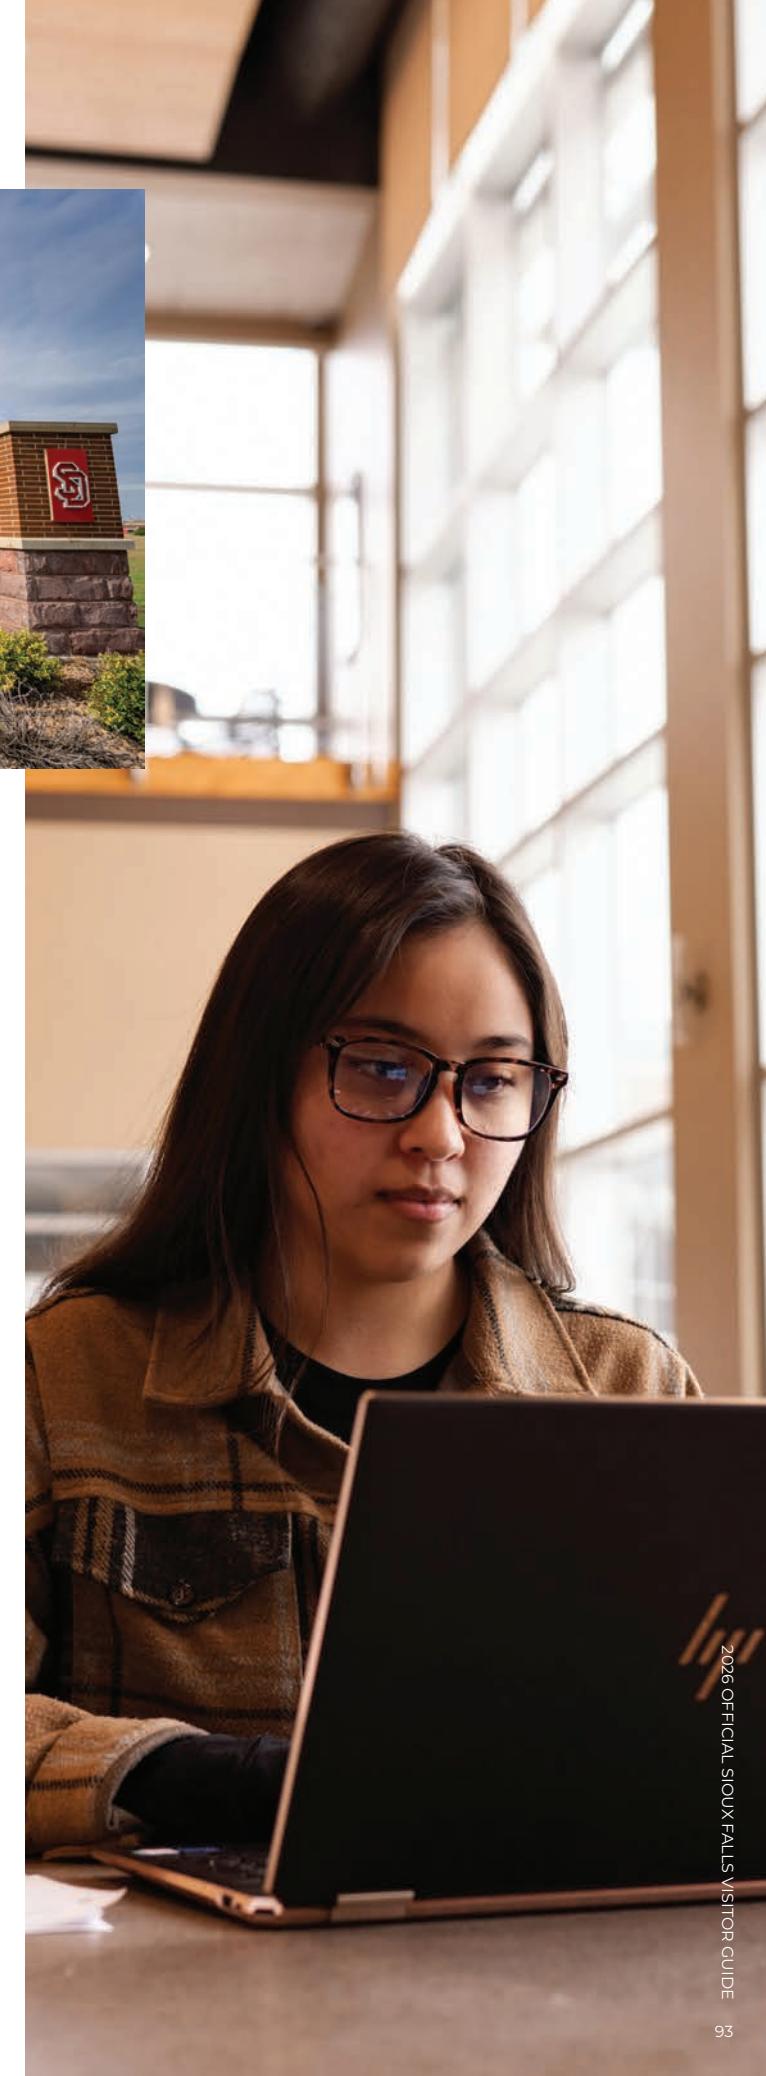

USD – SIOUX FALLS

Located on North Career Avenue, the University of South Dakota – Sioux Falls campus provides high-quality and affordable education for students with the flexibility they need to thrive. With strong support for traditional and non-traditional students, USD – Sioux Falls provides classes that fit into busy schedules, allowing for a work, family and school life balance. From practical skills to hands-on experience and opportunities to build professional connections, each student is supported in their goals and in their path to a career.

USD – Sioux Falls continues to grow. This fall, the campus announced a record year for enrollment; overall headcount at USD – Sioux Falls is up 19.1% from last fall, with a notable increase in degree-seeking students. In recent years, USD has expanded key degree programs to its Sioux Falls campus to address the city's workforce needs, such as an MBA and a bachelor's degree in elementary education. From associate to doctorate degrees, USD – Sioux Falls offers a range of options that prepare students for success in the workforce.

USD DISCOVERY DISTRICT

The USD Discovery District is a hub of innovative research and commercialization in South Dakota. In January of 2025, the research district opened the doors of its first building—a 50,000-square-foot, two-story facility for innovators in biotech and life science. The building offers customizable spaces and is designed to optimize research and collaboration, setting tenants up for success in promoting innovation and economic growth for South Dakota.

The building is strategically located near the USD – Sioux Falls campus, which further facilitates collaboration between the university and the private sector. USD – Sioux Falls is supporting South Dakota's workforce, and the USD Discovery District complements that mission by connecting students and businesses in mutually beneficial partnerships. Through these partnerships, students can access hands-on internship and research opportunities that help prepare them for their futures while USD Discovery District tenants benefit from the skills and perspectives of students. The research district has gained great momentum in building these connections, promoting innovation and growing industries that will strengthen South Dakota's economy and workforce.

USD SANFORD SCHOOL OF MEDICINE

As South Dakota's only school of medicine, the USD Sanford School of Medicine plays an important role in building the state's health care workforce, providing quality care and upholding strong partnerships across the state.

The school prepares medical students to practice in all fields of medicine, with a particularly strong reputation in family medicine and rural medicine. The Sanford School of Medicine is ranked top in the country for graduates practicing in rural areas and continues to provide students with educational opportunities that prepare them to meet the unique needs of a rural state. The Frontier And Rural Medicine program is key to this work, providing medical students with hands-on education in a rural setting and exposure to the rewards and challenges of providing patient care in rural areas.

The medical school is also a leader in bringing research from the bench to the bedside. Sanford School of Medicine faculty have been highly productive in applied and translational research, and students have opportunities to engage in a wide variety of research and scholarly activities. Through state-of-the-art research and teaching, which is strengthened by partnerships with the state's health systems, the medical school community furthers innovation and discovery that promotes the health and well-being of South Dakotans.

A salute TO OUR VETERANS

Sioux Falls is home to powerful landmarks that honor the courage, sacrifice, and service of America's military veterans.

Step into history at the **Battleship South Dakota Memorial**, where the massive concrete outline of World War II's most-decorated battleship helps visitors grasp the scale of this legendary vessel. From 1942 to 1945, the USS South Dakota and its crew fought in every major battle in the Pacific. Inside the museum—soon to be expanded—you'll find artifacts from life at sea and stories of bravery, including those who gave the ultimate sacrifice.

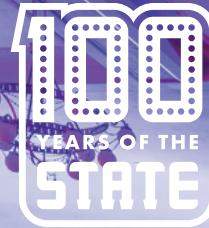

Nearby, the 22-acre **Veterans' Memorial Park** stands on the grounds of a former World War II Army Air Corps training base. Flags, striking sculptures, a memorial wall, and the Medal of Honor Garden create a place of remembrance. Winding paths along Covell Lake, shaded benches, and an amphitheater invite quiet reflection and community gatherings alike.

Just north of the city, the **South Dakota Veterans Cemetery**, established in 2021, stretches across 60 rolling acres. As the first federally funded, state-owned, and state-operated cemetery in South Dakota, it provides a solemn and lasting tribute to those who served.

Together, these sites offer moving opportunities to honor veterans, reflect on their sacrifices, and connect with the stories that shaped our nation.

MOVIE MAGIC: *A Century of Stories*

Since the turn of the 20th century, movie theaters have been the heartbeat of communities across the nation—a place to laugh, cry, and dream. The simple act of going to the cinema has always been an adventure: buying a ticket, splurging on popcorn, and letting the magic of the screen transport you to worlds far beyond your own.

For nearly a century, Sioux Falls has had its very own portal to that magic: the State Theatre on Phillips Avenue. A place where stories come alive, memories are made, and generations are entertained. But at one point, the lights nearly went out forever...

A WHILE...

Sioux Falls doesn't have to. For the past five years, growth has grown by 5,000-7,000 per year. **These new faces** come from both near and far, but one constant: they love the quality of life created in Sioux Falls.

UNIT 1: SETTING THE STAGE

On March 2, 1926, the doors to the State Theatre opened and welcomed the community to escape everyday life and be entertained with silent films and vaudeville acts. A landmark project for Twin Cities cinema entrepreneurs L. Finkelstein and I.H. Ruben, the movie palace featured a grand auditorium, ornate architectural details, and a brilliant marquee that illuminated the downtown skyline, and a Wurlitzer Organ that took 6 weeks to install and cost \$25,000. The State originally seated 1,634 guests, though the seats were quite different from the comfortable recliners audiences enjoy today.

D YOU KNOW? When the State Theatre opened, it was the largest theatre in South Dakota—and it used more electrical current than a town of 2,500 people!

ACT II: THE RISE AND DECLINE

For decades, the State Theatre thrived as the crown jewel of downtown Sioux Falls. In 1956, it even hosted the world premiere of *The Last Hunt*, a major motion picture starring Stewart Granger, Russ Tamblyn, and Venetia Stevenson—each of whom attended the event. However, as time went on, many historic movie palaces across the country were demolished or repurposed into parking lots and commercial spaces. The State was fortunate not to meet the same fate, but it ultimately closed its doors in June of 1990.

ACT III: THE SHOW MUST GO ON

ever underestimate the power of a community determined to preserve a cherished landmark. In 2005, a group of passionate Sioux Falls residents formed the Sioux Falls State Theatre Company, a 501(c)(3) nonprofit, to save the building and restore it to its original grandeur. Significant donations and unwavering support kept the project moving, but it would ultimately take nearly 30 years of fundraising, passion, and perseverance before the State Theatre welcomed audiences once again.

In December 11, 2020, the State Theatre reopened to the public with a perfectly fitting screening of *White Christmas*. However, the restoration is not yet complete. Innovations are still needed to open the second floor balcony—work that will increase seating capacity and return even more of the theatre's historic spaces to the community that has championed it for decades.

2026, the State Theatre will celebrate its 100th birthday. And now, thanks to the dedication of many, you are invited to experience a living piece of history—one that continues to shine because this community never stopped believing in it.

Some of us
grew up here.
Others found
our way here.
Either way,
we fell hard for
Sioux Falls.

**WE
LOVE
THIS CITY
AND YOU
WILL,
TOO**

Helping everyone
see what makes this
place so special:
The people.
The energy.
The bold ideas.

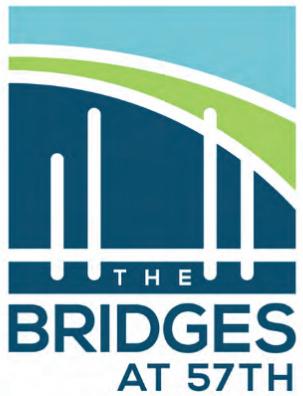

*That's a job
we truly love.*
